MISSION SANJEEVANI

PROTECT SECURE PRESERVE 2.0

The second wave of COVID-19 is deadlier and more severe. Public healthcare is in shambles. We are on the ground with Oxfam India's response 2.0 Mission Sanjeevani.

Here's an update*:

34 Oxygen Concentrators

1150 PPE Kits

30 Oxymetres

40 Hospital Beds

375 Digital Thermometres

45 Oxygen Flow Metres with Humidifier

300 Oxygen Nasal Masks

2607 Safety Kits

457 Dry Ration Kits

8 Patient Monitors

20 Nebulizers

4 BP Machines

* RESPONSE AS ON 15 MAY 2021

[OXFAMINDIA.ORG/CORONAVIRUS](https://oxfamindia.org/coronavirus)

The second wave of the Coronavirus is deadlier and more severe. The unpredictability of the new variant has left an entire nation gasping for breath. The healthcare system in the country is in shambles. As the virus moves into the rural areas, the impact is worse. There is neither testing nor medical facilities; people are left to fend for themselves.

Just around the time when we were planning to expand our long term response the second wave swept the country. **We have now launched our response 2.0 Mission Sanjeevani.** In this the focus is on reaching out to public healthcare institutions with medical equipment, PPE Kit & safety kits and to some of the most marginalised and vulnerable communities with food and safety kit.

¹ As on 15 May, 2021

MISSION SANJEEVANI

PROTECT SECURE PRESERVE 2.0

In 2020, we started our response soon after the lockdown was announced on 24 March last year. We are in **16 states** with our Project PSP (Protect. Secure. Preserve). We have reached out with food and safety kits in 16 states — Delhi, UP, Bihar, Odisha, Tamil Nadu, Assam, Karnataka, Kerala, West Bengal, Gujarat, Jharkhand, Chhattisgarh, Telangana, Rajasthan and Maharashtra. We have also reached out to over 16 states through our virtual training to partner NGOs, volunteers, frontline health workers on COVID-19.

We extended our work on different national and state highways to reach out to migrant workers who were returning to their villages and towns on foot. This part of the PSP project was called 'Pathik'.

MISSION SANJEEVANI

PROTECT SECURE PRESERVE 2.0

When the second wave swept us, we were still reeling under the economic consequences of last year's lockdown. Migrant and informal sector workers who had lost their jobs and source of income during those two months are still unable to get back on their feet. Families are still struggling to make ends meet. Our programme moved from immediate relief to intermediate livelihood support. It was essential that the most marginalised and vulnerable families are made economically sustainable while also ensuring that we reach with food and safety kit wherever required.

Livelihood Training

The women SHGs who were trained have now, with input support, started their own small business enterprises. We worked with **81 women SHGs in Maharashtra (Nagpur & Mumbai), Gujarat (Ahmedabad), Bihar, Delhi and West Bengal**. We have reached over **1000 women** training them in papad making, tailoring, beautician course, catering, home-based shops, goat rearing, compost making, and vegetable vending. We provided sewing machines, ready made garments, and food material for women to start their tailoring, home-based shops, and catering businesses.

Our Outreach

Through our COVID-19 response we have reached out to the most marginalised and vulnerable communities; communities that are most discriminated against. We have been on the field for over two months and apart from the migrant workers returning home—on foot, on trucks and on cycles—we have reached out to weavers from the Padmashali community, tribal forest dwellers, dalit fisherfolk, tiger widows of Sunderbans, leprosy and cancer patients, home-based commercial sex workers, members of the transgender community, sanitation workers, members from the nomadic community, tea garden workers, the differently abled and people with disabilities, the elderly, community affected by riots, brick kiln workers, rag pickers, beggars and the homeless.

Unconditional Cash Transfers

UCTs of Rs 5000 & Rs 1000 have been made to **9481** households in Bihar, Assam, Odisha and Tamil Nadu; **Rs 296.05** Lakh have been distributed. The criteria for the UCT is that they are the most marginalised, single women or women led households, and persons with disabilities.

In Tamil Nadu, unconditional cash transfers were made to families of 62 sanitation workers in Chennai. In Bihar, the focus is on single, widowed women and women-led households.

MISSION SANJEEVANI

PROTECT SECURE PRESERVE 2.0

Food: Dry Ration

443575 people have been supported with dry food ration in Maharashtra, Delhi, UP, Bihar, Odisha, Tamil Nadu, West Bengal, Chhattisgarh, Jharkhand, Assam, Telangana, Karnataka, Rajasthan and Kerala.

Dry ration is distributed among the poorest households — those who rely on daily wages and do not have any money or food since the lockdown. These include brick kiln workers in Patna and Puri, tea garden workers in West Bengal, homeless in Chennai, survivors of domestic violence in Rajasthan, and migrant workers in Raipur. Focus is on those workers who do not have access to PDS ration, especially in Bihar.

The dry ration includes rice, flour, pulses, salt, some spices such as *haldi* & chilli powder, edible oil, sugar, tea, soybean. These kits vary according to the cultural context of the different states. For instance, the kit in Delhi includes Rajma instead of Soybean. Similarly, the dry ration kits in Karnataka's Tumkur district contain Ragi, a staple millet in Karnataka. The idea is to also ensure that the nutritional requirements — carbohydrate, fat, protein — of the families are met. The kit serves a family of five for two meals a day for a period of 30 days.

700 kits were distributed by an all-women's volunteer team among the most marginalised women in Ahmedabad. **467** dry food ration kits distributed among **cancer patients** in Delhi and **255** among **leprosy patients** in the West Bengal's Bankura district & parts of Delhi. Kits were also distributed among **1000** belonging to the **transgender** community & sex workers in Kolkata, Raipur, Durg & Bangalore.

Dry ration was provided to run '**dignity kitchens**' in Ahmedabad. These kitchens run by the migrant workers themselves will take care of the food requirements of **1500 stranded labourers**.

Food: Cooked Meals

60080 packets of ready to eat cooked meals have been distributed in Kerala, Tamil Nadu, Delhi, Gujarat and Maharashtra.

This includes the **7725** meals distributed under the new project Pathik - which caters to the needs of the migrant workers returning home on cycles, foot, in trucks, trailers and buses. This was distributed on National Highways in Delhi, UP, Maharashtra, Karnataka, Bihar, and Odisha-AP border

The hot cooked meals were served to the stranded migrant workers, informal sector workers who lost their jobs, beggars, and the homeless.

MISSION SANJEEVANI

PROTECT SECURE PRESERVE 2.0

Virat Kohli's one8 Commune (restaurant) collaborated with Oxfam India to provide hot cooked meal in parts of Delhi; **6500** packets were distributed in a fortnight.

Project Pathik

Food and hygiene kits were distributed among **4665 migrant workers** returning home. This was distributed on National Highways in Delhi, UP, Maharashtra, Karnataka, Bihar, and Odisha-AP border

These kits include chiwda, sattu, biscuits, Horlicks, water, jaggery, soap, salt, Glucon-D and sanitary napkins. In Karnataka, the kit also included ragi biscuits and chikki. *Gamcha* was added to the Bihar kits.

The Pathik Vans distributing the food and hygiene kits are equipped with first aid kits in case of a medical emergency.

Kits for Women

300 hygiene kits were distributed among women from riparian communities in Gorakhpur (UP). The kit consisted of six bathing soap, six washing soap, nail cutter, comb, towel, three face masks & two sanitary pad packets.

Menstrual Health

Under the Pathik Project in UP, **76 sanitary napkins** were given away to migrant women workers returning to their homes. This was not included in the food & hygiene kit but given on a requirement basis.

We have ensured to integrate Menstrual Hygiene Management in our COVID-19 response. In collaboration with Niine (one of the co-sponsors of the Rajasthan Royal team in the IPL) as part of their Every Run Counts initiative, we distributed **3600 sanitary pads** to young girls. **905 winter kits** were distributed among the rag pickers and waste pickers community in Delhi. The kits included fleece blankets, shawls, masks and sanitary napkins.

Safety Kits & PPE kits*

- **67560 safety kits** have been distributed in states like Kerala, Maharashtra, Bihar, Odisha, Assam, West Bengal, Uttar Pradesh, Karnataka, Telangana, for **frontline workers** including doctors, nurses, hospital staff, police stations and other support staff.

- **8426 PPE kits** to government hospitals and state health departments in Bihar, UP, Maharashtra, Haryana, Delhi, Kerala and Karnataka

MISSION SANJEEVANI

PROTECT SECURE PRESERVE 2.0

· Of these **700 PPE kits** handed over to the Indian Army deployed in the Northeast. **200 PPE kits** distributed were given to the Rajiv Gandhi Institute of Chest Diseases, Bangalore.

*{Safety kits of Staff/Volunteers in the field: 3-ply mask (2 unit) & Liquid Hand washing Lifebuoy 200 ml (1 unit);

PPE kits/Safety kits for Doctors/Nurse Medical staff and other hospital staffs directly dealing with Covid-19 patient: N95 EQUIVALENT Mask (2 unit), Nitrile Gloves (2 pair), PPE Kit (Full Body cover) (1 unit), Disposable goggles (1 unit) & Hand sanitiser 200 ml (1 unit)}

Hand-washing Station

Two portable, hands-free, washing station was set up at a quarantine centre in Pune district. The hand washing unit was set up in a 100-bed quarantine facility.

Mass Awareness

Over **5 million** people have been reached through awareness generation messages on COVID-19 by using various innovative communication mediums such as mobile vans, miking from public places such as temples and mosques. These have been well appreciated by respective state governments.

26647 volunteers and **36 CSOs** have been added to the WG-CAN platform for the dissemination of COVID-19 related information; **197623 messages** across the country using the WG-CAN platform (software/website).

Mobile van awareness campaign in UP and Bihar carried out through miking and announcements. In UP, this was done in Gorakhpur, Bahraich and Lucknow. And there is request by the state government to go to other districts in UP. A seven-day Video Van Campaign was organised in Nagpur to spread awareness about maintaining cleanliness and hygiene.

Alternative messaging systems such as Microware software has been pilot-tested in Uttar Pradesh and Assam for mass messaging of preventive efforts. In UP, the use of a tele texting software for awareness generation is being actioned in collaboration with the UPSDMA. Lucknow University has been brought onboard as a strategic partner for awareness generation through tele texting. At present, the messages are directly shared with over 600 volunteers across Uttar Pradesh.

IEC material designed by Oxfam and partners for dissemination of information via multiple available platforms—online and offline, in Kerala, Maharashtra, UP, Assam and West Bengal.

MISSION SANJEEVANI

Training and Orientation

Oxfam India and partners have deployed 260 volunteers and 65 staff across several states.

More than 300 Oxfam staff, partner staff and volunteers from Assam, Bihar, Odisha, Uttar Pradesh, Delhi, Chhattisgarh, Kerala, Tamil Nadu, Maharashtra have been provided orientation on COVID-19 focusing on self-protection and protection of others.

Trainings have been given to Oxfam staff and partners on COVID-19 and Water, Sanitation and Hygiene (WASH) response, on Gender, Social Protection and EFSVL (Emergency Food Security and Vulnerable Livelihoods), and on community engagement and risk communication.

Overall, State-wise online training has been delivered to **2500** staff, volunteers, partners staff in Delhi, Kerala, Maharashtra, Manipur, Odisha, West Bengal, Bihar, Karnataka, Jammu and Kashmir, and Tamil Nadu.

Working with Government and other NGOs

Letters of appreciation received from the Delhi, Chhattisgarh, Uttar Pradesh and Bihar government.

Oxfam India signed an MOU with the Jharkhand State government to work together to track migrants and link them up with support systems and aids. OIN is also working with the state to create a dashboard to track migrant workers.

Uttar Pradesh's Health department is in talks with Oxfam India to develop IEC material for mass awareness. Bihar too worked closely with the State Health Society for the distribution of the PPE kits.

Uttar Pradesh State Disaster Management Authority (UPSDMA) has formed a Task Force on COVID-19. Oxfam India has been nominated to this Task Force, and we are providing advice and support to UPSDMA and seeking necessary support for effective actions by CSOs as necessary.

Sphere India, the apex network of humanitarian agencies, has formed a working group to coordinate with inter-agency groups in the states. Oxfam India is co-chairing this group for stronger coordination with all leaders in the Inter-agency groups.

Recognition

Oxfam India won the Gold Award at the 4th CSR Health Impact Award in Covid Relief Project (NGO) category on 22 August. In an online event, the award was received by Pankaj Anand (Director, Programmes & Advocacy) on behalf of Oxfam India. The CSR Health Impact Awards is a flagship event of the Integrated Health and Wellbeing (IHW) Council, a premier think tank promoting health for all. The 4th edition is hosted in association with Jagran Pehel.
