THE SECRETARIAT OF NATIONAL COALITION OF CIVIL SOCIETY ORGANIZATIONS

BACKDROP

In India the civil society organizations have been experimenting and developing various community participation models but mostly its spread has been limited and operations remained in silos because of lack of platforms and alliances to highlight their works. Therefore, Oxfam India has set a national coalition for civil society organizations from 15 states in the country to bring certain macro-level changes that can help to achieve the envisaged health, nutrition and women's economic empowerment outcomes through a common platform. It is believed that this platform will give a collective voice to the people and has the capacity to negotiate and influence the state for the necessary integration of health, nutrition and gender under the government flagship programmes like NRLM, NHM, ICDS and others. Oxfam India acts as an interim Secretariat for this coalition at the national level to provide necessary support for its effective functioning. As the thematic areas of work of this coalition are being looked through the lens of gender discrimination and social inclusion, emphasis is being given on Dalits, Adivasis and Muslims communities.

As evidence generation is one of the key strategies for functioning of this coalition, Oxfam India intended to develop a state factsheet for each of the target states to highlight health, nutrition and women empowerment related issues of the state.

Only the important indicators related to health, nutrition and women empowerment have been included in this factsheet and presentation of segregated data is limited to only locations (rural & urban), caste categories (SC, ST, OBC & Others) and religious groups (Hindus & Muslims). As data for other religious categories are not available for all indicators for all sources, only two religious groups have been considered for the present analysis.

WOMEN 15-19 YEARS WHO WERE ALREADY MOTHERS OR PREGNANT (%)

Source: NFHS 2015-2016

- Early marriage in rural areas and teen age pregnancy among the Scheduled Tribe population are two major concern areas of Gujarat.

MORTALITY

MORTALITY RATES (DEATHS PER 1000 LIVE BIRTHS)

MATERNAL MORTALITY RATE (MMR) (DEATHS PER 100,000 LIVE BIRTHS)

CURRENTLY MARRIED WOMEN AGED 15-49 WITH UNMET NEED * FOR FAMILY PLANNING (%)

* Unmet need for family planning is defined as the percentage of currently married women who either want to space their next birth or stop childbearing entirely, but are not using contraception.

- Under 5 mortality rate is more of a cause of concern especially in rural areas and among Scheduled Caste population. However, neonatal and infant mortality rates are also high.
- Prevalence of high unmet need among Muslim women signifying poor access to contraceptive measures. Also need to remember that TFR is also high among Muslims in the state.

MATERNAL CARE

MOTHERS WHO HAD AT LEAST 4 ANTENATAL CARE VISITS (%)

Source: NFHS 2015-2016

GUJARAT

50.4

Source: NFHS 2015-2016

- Immunization remains an area of concern, especially among the OBCs and the Muslim population.
- Also, its urban areas see a high surge in caesarian section deliveries.

CHILD FEEDING PRACTICES AND NUTRITIONAL STATUS

CHILDREN UNDER AGE OF 2 YEARS BREASTFED WITHIN ONE HOUR OF BIRTH (%)

CHILDREN AGED 6-8 MONTHS RECEIVING SOLID OR SEMI-SOLID FOOD AND BREASTMILK (%)

PREVALENCE OF LOW BIRTHWEIGHT (%)

CHILDREN UNDER AGE 6 MONTHS EXCLUSIVELY BREASTFED (%)

MEDIAN DURATION OF EXCLUSIVE BREASTFEEDING AMONG LAST-BORN CHILDREN BORN IN THE LAST THREE YEARS (MONTHS)

- Early initiation of breastfeeding is poor among the tribal population.

CHILDREN UNDER 5 YEARS WHO ARE UNDERWEIGHT (%)

CHILDREN UNDER 5 YEARS WHO ARE STUNTED (%)

CHILDREN UNDER 5 YEARS WHO ARE WASTED (%)

CHILDREN AGE 6-59 MONTHS WHO ARE ANAEMIC (<11.0 G/DL)(%)

- High child malnutrition rates in the state, especially among tribal population.
- Child anemia status is extremely worrisome.

DIETARY DIVERSITY PATTERN

6-23 MONTHS CHILDREN FED 4+ FOOD GROUPS IN PAST 24 HOURS (%)

6-23 MONTHS CHILDREN FED MINIMUM MEAL FREQUENCY IN PAST 24 HOURS (%)

- The poor nutritional status of the children can be reconfirmed by the fact that their dietary diversity pattern is appallingly low, more so among its tribal population.

NUTRITIONAL STATUS OF WOMEN AND MEN

WOMEN WHOSE BODY MASS INDEX IS BELOW NORMAL (BMI < 18.5 KG/M²) (%)

WOMEN WHO ARE OVERWEIGHT OR OBESE (BMI ≥ 25.0 KG/M²) (%)

WOMEN AND MEN AGED 15-49 YEARS WHO ARE ANAEMIC (%)

PREGNANT WOMEN AGED 15-49 YEARS WHO ARE ANAEMIC (<11.0 G/DL) (%)

BY CASTE

BY RELIGION

- Nutritional status is a matter of concern in the state, both among its children and adults. Gujarat has around 30% of women whose BMI is below normal, with Scheduled tribe and those in rural areas being more critical. On the other hand, obesity is a rising threat in the urban areas, being higher than both the state and country figures.
- Anaemia is a major concern both across the nation and state with around 50% of the women (pregnant and non-pregnant) with low haemoglobin count.

MENSTRUAL HYGIENE

WOMEN & MEN AGED 15-49 YEARS WHO REPORTED SEXUALLY TRANSMITTED INFECTION (STI) IN THE PAST 12 MONTHS (%)

Source: NFHS 2015-2016

- Prevalence of unsafe menstrual practices is a major concern in the state with 40% having poor menstrual hygiene. This difference is particularly high among the tribal population.
- High prevalence of Tuberculosis among men is another concern.

HEALTH EXPENDITURES

GOVERNMENT HEALTH EXPENDITURE (%
OF TOTAL HEALTH EXPENDITURE)

OUT OF POCKET HEALTH EXPENDITURE (%
OF TOTAL HEALTH EXPENDITURE)

Source: National Health Accounts Estimates for India 2016-17

AVERAGE OUT OF POCKET EXPENDITURE PER DELIVERY IN PUBLIC, PRIVATE AND ANY HEALTH FACILITY (RUPEES)

- Government share in health expenditure is abysmal in both India and Gujarat, although Gujarat fares a little better than the country.
- With low government share in health expenditure, Gujarat shows high out of pocket expense (48%).

GOVERNMENT FLAGSHIP PROGRAMMES FOR HEALTH AND NUTRITION

NATIONAL HEALTH MISSION

The National Health Mission (NHM) encompasses its two Sub-Missions, the National Rural Health Mission (NRHM) and the National Urban Health Mission (NUHM). The main programmatic components include Health System Strengthening, Reproductive-Maternal- Neonatal-Child and Adolescent Health (RMNCH+A), and Communicable and Non-Communicable Diseases. The NHM envisages achievement of universal access to equitable, affordable & quality health care services that are accountable and responsive to people's needs.

NHM has six financing components:

- (i) NRHM-RCH Flexipool,
- (ii) NUHM Flexipool,
- (iii) Flexible pool for Communicable disease,
- (iv) Flexible pool for Non communicable disease including Injury and Trauma,
- (v) Infrastructure Maintenance and
- (vi) Family Welfare Central Sector component.

INTEGRATED CHILD DEVELOPMENT

Integrated Child Development Services (ICDS) Scheme is one of the flagship programmes of the Government of India and represents one of the world's largest and unique programmes for early childhood care and development.

The beneficiaries under the Scheme are children in the age group of 0-6 years, pregnant women and lactating mothers. Objectives of the Scheme are:

1. To improve the nutritional and health status of children in the age-group 0-6 years;
2. To lay the foundation for proper psychological, physical and social development of the child;
3. To reduce the incidence of mortality, morbidity, malnutrition and school dropout;
4. To achieve effective co-ordination of policy and implementation amongst the various departments to promote child development;
5. To enhance the capability of the mother to look after the normal health and nutritional needs of the child through proper nutrition and health education.

POSHAN ABHIYAAN

The Prime Minister's Overarching Scheme for Holistic Nutrition (POSHAN) Abhiyaan or National Nutrition Mission is one of the India's flagship programmes to improve nutritional outcomes for children, adolescents, pregnant women and lactating mothers by leveraging technology, a targeted approach and convergence. It aims to build a people's movement (Jan Andolan) around malnutrition.

Key Strategies

For implementation of POSHAN Abhiyaan the mission adopts a four point strategy:

1. Inter-sectoral convergence for better service delivery
 2. Use of technology (ICT) for real time growth monitoring and tracking of women and children
 3. Intensified health and nutrition services for the first 1000 days
- Jan Andolan

- The state has less incidence of violence against women than the country figure, however the rate is high in the rural areas and among the scheduled tribe population.
- Crime against women has slightly increased in the state in past one year.

GOVERNMENT FLAGSHIP PROGRAMMES FOR WOMEN EMPOWERMENT

NATIONAL RURAL LIVELIHOOD MISSION

What is NRLM

Govt. of India established National Rural Livelihoods Mission (NRLM) in June 2010 to implement the new strategy of poverty alleviation woven around community based institutions.

Mission's primary objective is to reduce poverty by promoting diversified and gainful self-employment and wage employment opportunities for sustainable increase in incomes.

To achieve the desired goal of the mission, NRLM provides a combination of financial resource and technical assistance to states such that they could use the comprehensive livelihoods approach encompassing four inter-related tasks. These tasks are:

1. Mobilizing all rural, poor households into effective self-help groups (SHGs) and their federations;
2. Enhancing access of the rural poor to credit and other financial, technical and marketing services;
3. Building capacities and skills of the poor **for gainful and sustainable livelihoods; and**
4. Improving the delivery of social and economic support services to the poor.

BETI BACHAO BETI PADHAO

Beti Bachao, Beti Padhao is a campaign of the Government of India that aims to generate awareness and improve the efficiency of welfare services intended for girls in India.

The Overall Goal of the Beti Bachao Beti Padhao (BBBP) Scheme is to celebrate the girl child and enable her education. The objectives of the Scheme are as under:

- i. To prevent gender biased sex selective elimination
- ii. To ensure survival and protection of the girl child
- iii. To ensure education and participation of the girl child

Strategies employed to successfully carry out the scheme are:

1. Implement a sustained social mobilization and communication campaign to create equal value for the girl child and promote her education.
2. Place the issue of decline in child sex ratio/sex ratio at birth in public discourse, improvement of which would be an indicator for good governance.
3. Focus on gender critical districts and cities.
