

HOLISTIC RURAL DEVELOPMENT PROGRAMME (HRDP)

Oxfam India is implementing Project Utthan with support from HDFC Bank. The project aims to empower the communities in villages in 30 villages in Bihar's Nalanda and Sitamarhi district and 17 villages in Odisha's Kalahandi district.

The Programme emphasises employment, education, health, natural resource management, and financial literacy. The project aims to reach out to all households in these villages and work with women (marginal, small, and landless farmers) through sustainable livelihood initiatives.

HOW HAVE WE FARED? HERE'S A SCORECARD:-

WORKING WITH/IN	NALANDA	SITAMARHI
Women farmers & livelihood generating activity	1040	1500
Impact	22% income increase	20% income increase
Linkages with Govt Schemes	Rs 23.20 lakh (drip irrigation subsidies)	Rs 25 lakh (support for vegetable seeds through KVKs)
Number of Village Groups/Institutions Formed	15 VDCs, 84 Producer Groups, 3 Agro-Based Groups, 3 Irrigation-Based Groups	15 VDCs, 4 Solar Irrigation Groups, 2 Bangle Enterprise Groups, 2 Mushroom Enterprise Groups
Total Members in the Village Institutions	1870	314
PROMOTING EDUCATION	NALANDA	SITAMARHI
Schools	10	6
Students	5150	2100
Anganwadi Centres	10	6
Children	400	240
DEVELOPMENT THROUGH NATURAL RESOURCE MANAGEMENT	NALANDA	SITAMARHI
Solar Street Lights	160	150
Coverage	2500 (HH)	1500 (HH)
Solar Lamps	656	800
Solar Irrigation Systems	3	4
Coverage	81 acres	100 acres
Farmers Benefitting from the Irrigation System	205	280
Reduction in Carbon footprint	43 kg of carbon emissions reduced in a year	38 kg of carbon emissions reduced in a year
Land Under Chemical-Free Farming (vegetable, cereals, oilseeds production)	142 acres	320 acres

Solar-based group irrigation systems in Sitamarhi will help irrigate around 100 acres of land and grow cash crops in all seasons.

17 VILLAGES | 2700 WOMEN

VILLAGE GROUPS/INSTITUTIONS FORMED

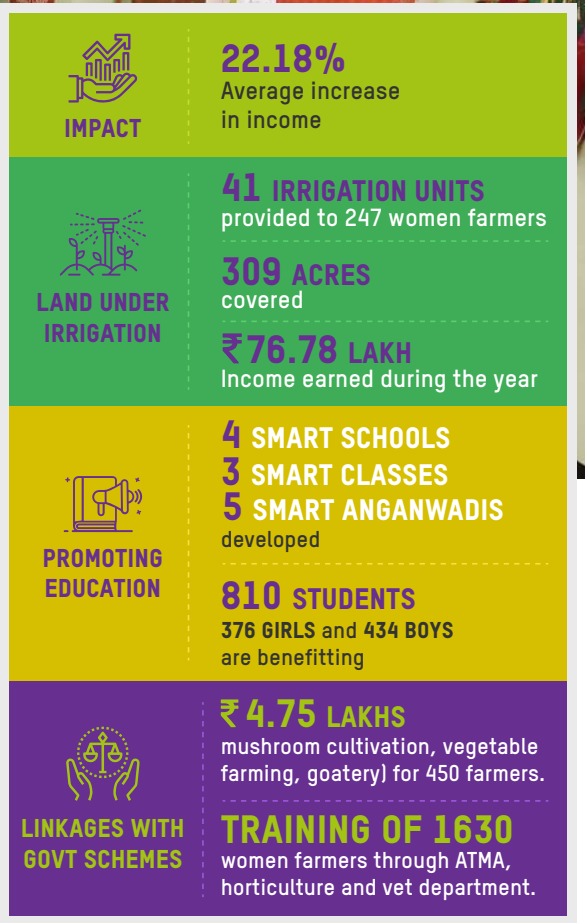

TECHNOLOGY & INNOVATION

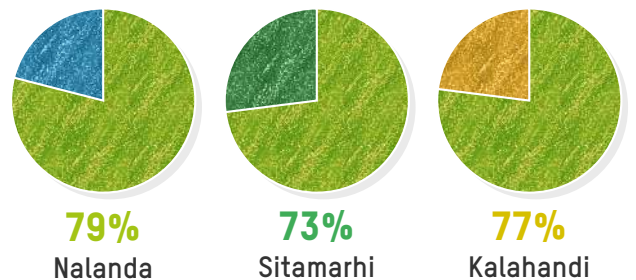

- ✓ Rain gun-sprinkler for water management
- ✓ Sabji cooler for agriculture commodities storage facilities at the community gate
- ✓ Resource center for sharing information for the community on different development works
- ✓ FFS center for sharing information on agriculture and low-cost method farming practices, azolla, duckweed, jeevamruta, vermicompost

RECOGNITION

District Magistrate of Kalahandi P. Anvesha Reddy paid a surprise visit to our school in Manikera, and met with teachers & SMC members. Impressed with our smart class structure setup, she instructed her staff to develop same smart TV setup structure in the 5T model at the government school and initiate smart class on the lines of our project.

FINANCIAL UTILISATION (FY 22-23)*

*Till Nov 2022
